

## Commercial Contraceptive Long-Acting Reversible Contraception (LARC) Coding & Billing Guidelines for Inpatient Setting

- Coverage varies based on the patient's benefit plan.
- Always verify with the patient's insurance to see if the device and procedure are covered when service is provided in inpatient setting.
- If covered, is a prior authorization required?
- **There is usually no separate reimbursement for the device when provided by the hospital.**
- If the LARC device is provided by the physician/physician group, they will bill for the procedure and device on a HCFA 1500.
- If implanted on the same day as delivery, multiple procedure rules will apply.
